#### **Summary**

This profile provides an overview
of water, sanitation and hygiene
(WASH) infrastructure within Zone XX in Ukhiya, Cox's Bazar.
Żone XX in Ukhiya, Cox's Bazar.
Primary data for this round was
collected between 20 October
and 9 November 2017.1 Findings
should be considered indicative
only.

## Access to Water

### Three most commonly identified types of water points, by functionality

		· · · · · ·	•			
81% Handpump/tubewell	73%			27%		
13% Unimproved water source	71%			29%	Function Non-fu	ional unctional
5% Well	100%		•	0%		
Key sectoral achievements						
		Target	Previous Round	Current F	Round	Achievement
# of people per functional hand pump		max. 500 <sup>3</sup>	N/A	N/A	L	N/A
% of shelters within 200 metres of a functio pump⁴	nal hand	100%	N/A	100%	6	

Targets based on WASH Sector Standards/Indicators for the Rohingya response, Sphere Minimum Standards/Indicators as well as Department of Public Health and Environment (DPHE) Minimum Standards/Indicators 
Minimum standard/indicator reached, 
75%-99% minimum standard/indicator reached, • 50-74% minimum standard/indicator reached, • Less than 50% of minimum standard/indicator reached

<sup>1</sup> REACH enumerators conducted a full sweep of all sites and camps (as per boundaries defined by ISCG) and used an Open Data Kit (ODK) form to log all key infrastructure observed during this sweep, with further details to be logged for WASH infrastructure. <sup>4</sup> Safe refers to fully covered latrines (i.e. a latrine with four walls, a roof and a door) <sup>3</sup> This farget is based on standards for the medium and long term (3 months +), for the immediate phase (0-3 months) it is 1000. <sup>4</sup> The distance is based on standards for the long term (6 months+), for the immediate phase (0-3 months) it is 750 metres and for the medium phase (3-6 months) 500 metres.

Sanitation

### Latrine characteristics

% of functional/non-functional latrines % of safe/unsafe latrines: % of latrines with/without lights 71% functional (non-full) latrines 38% Safe (roof, door, wall) 0% With lights 62% 100% 29% non-functional latrines Unsafe Without lights Key sectoral achievements Target **Previous Round Current Round** Achievement

			• • • • • • • • • • • • •	
# of people per functional (non-full) latrine	max. 50 <sup>4</sup>	N/A	N/A	N/A
# of people per safe latrine	N/A	N/A	N/A	N/A
% of shelters within 50 meters to a functional (non- full) latrine	100%	N/A	100%	
% of latrines that are at least 10 meters away from a water point	100%	N/A	70%	

Targets based on WASH Sector Standards/Indicators for Rohingya response, Sphere Minimum Standards/Indicators as well as DPHE Minimum Standards/ Indicators • Minimum standard/indicator reached, • 75%-99% minimum standard/indicator reached, • 50-74% minimum standard/indicator reached, • Less than 50% of minimum standard/indicator reached

<sup>4</sup> This target is based on standards for the long term (6 months +), for the immediate phase (0-3 months) it is 100 and for the medium phase (3-6 months) 75.
