

South Sudan - Shelter and Non-Food Items (NFIs)

South Sudan Displacement Crisis

Assessment of Hard-to-Reach Areas in South Sudan

June 2021

Overview

The continuation of conflict since December 2013 has created a complex humanitarian crisis in the country, restricting humanitarian access and hindering the flow of information required by aid partners to deliver humanitarian assistance to populations in need. To address information gaps faced by the humanitarian response in South Sudan, REACH employs its Area of Knowledge (AoK) methodology to collect relevant information in hard-to-reach areas to inform humanitarian planning and interventions outside formal settlement sites.

Using the AoK methodology, REACH remotely monitors needs and access to services in the

Greater Upper Nile, Greater Equatoria and Greater Bahr el Ghazal regions. AoK data is collected monthly, through multi-sector interviews with the following typology of key informants (KIs):

- KIs who are newly arrived internally displaced persons (IDPs) who have left a hard-to-reach settlement in the last month
- KIs who have been in contact with someone living in a hard-to-reach settlement, or have been visiting one in the last month (traders, migrants, family members, etc.)
- KIs who are remaining in hard-to-reach settlements, contacted through phone

Selected KIs are purposively sampled and have knowledge from within the last month about a specific settlement in South Sudan, with data collected at the settlement level. About half of settlements assessed have more than one KI reporting on the settlement. In these cases, data is aggregated at the settlement level according to a weighting mechanism, which can be found in the [Terms of Reference \(ToRs\)](#).

All percentages presented in this factsheet, unless otherwise specified, represent the proportion of settlements assessed with that specific response.

The findings presented in this factsheet are indicative of the broad shelter and non-food item

trends in assessed settlements in June 2021, and are not statistically generalisable.

Assessment Coverage

2754 Key informants interviewed

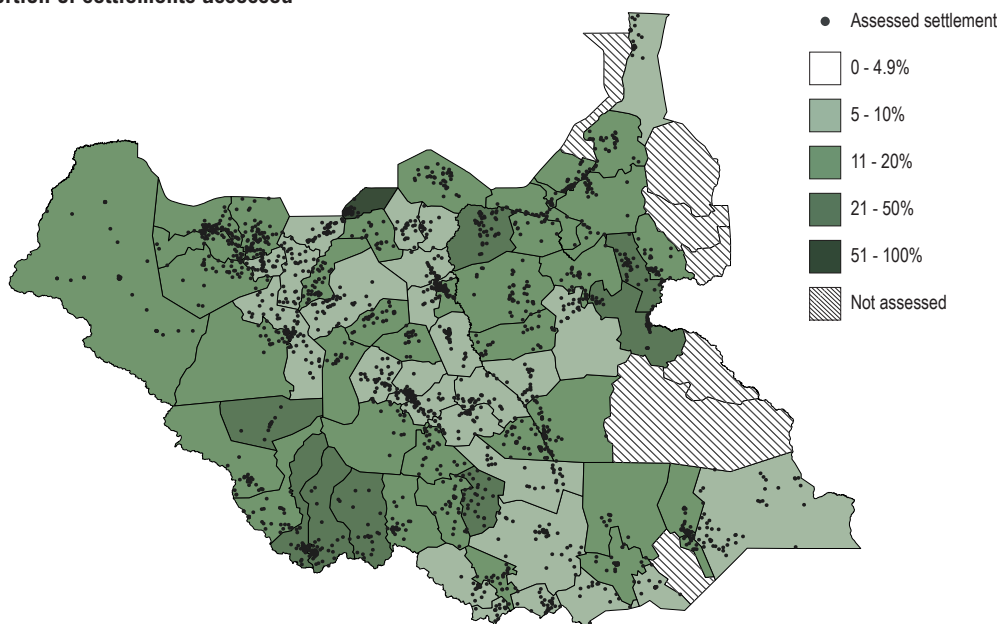

2210 Settlements assessed

71 Counties assessed

71 Counties with 5% or more coverage¹

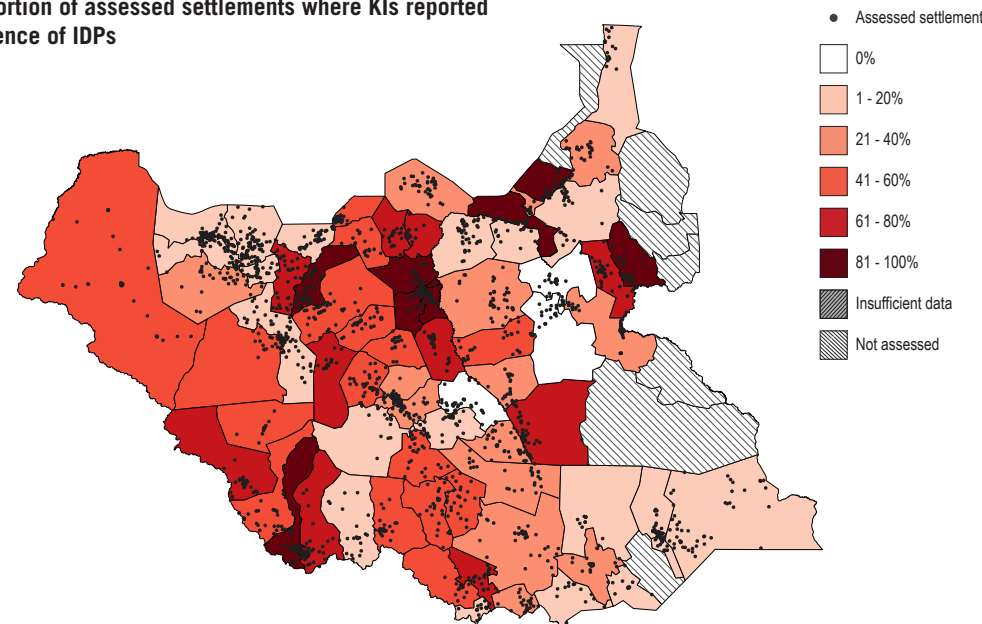

Assessment coverage

Proportion of settlements assessed

IDP Presence

Proportion of assessed settlements where KIs reported presence of IDPs

¹ Data is only represented for counties in which at least 5% of settlements have been assessed. The most recent [OCHA Common Operational Dataset \(COD\)](#) released in March 2019 has been used as the reference for settlement names and locations.

IDP shelter

Proportion of assessed settlements where KIs reported half or more than half of IDPs are living out in the open

Shelter

Proportion of assessed settlements where KIs reported half or more than half of the returnees are living in temporary structures or out in the open

IDP shelter

Two counties with assessed settlements where KIs reported that half or more than half of the IDPs are living out in the open.

Gogrial West	3%
Akobo	2%

Top five counties with the highest proportion of assessed settlements where KIs reported IDPs are primarily living in temporary structures or out in the open

Twic East	100% <div></div>
Renk	100% <div></div>
Duk	100% <div></div>
Bor South	83% <div></div>
Lainya	80% <div></div>

Returnee shelter

Top five counties with the highest proportion of assessed settlements where KIs reported that half or more than half of the returnees are living in temporary shelters or out in the open.

Melut	100% <div></div>
Malakal	100% <div></div>
Lainya	100% <div></div>
Bor South	75% <div></div>
Luakpiny/Nasir	67% <div></div>

Top five counties with the highest proportion of assessed settlements where KIs reported presence of IDPs or returnees

Fashoda	100% <div></div>
Ayod	98% <div></div>
Panyikang	94% <div></div>
Tonj East	93% <div></div>
Magwi	92% <div></div>

June 2021

Shelter status

Proportion of assessed settlements where KIs reported host community members are living in temporal or open shelters

Proportion of assessed settlements where KIs reported that half or more than half of the shelters are destroyed

Host community shelter

Top five counties with the highest proportion of assessed settlements where KIs reported that the host community members are leaving in temporal or open shelters

Renk	73%	<div></div>
Melut	71%	<div></div>
Twic East	55%	<div></div>
Malakal	50%	<div></div>
Duk	33%	<div></div>

Shelter damage: conflict

Top five counties with the highest proportion of assessed settlements where KIs reported shelter damage due to conflict in the 30 days prior to data collection

Rumbek North	33%	<div></div>
Tonj South	17%	<div></div>
Lainya	9%	<div></div>
Twic	8%	<div></div>
Tonj North	8%	<div></div>

Shelter damage: flooding

Top five counties with the highest proportion of assessed settlements where KIs reported shelter damage due to flooding in the 30 days prior to data collection

Panyikang	89%	<div></div>
Fangak	85%	<div></div>
Panyijiar	42%	<div></div>
Mayendit	28%	<div></div>
Fashoda	21%	<div></div>

Shelter damage: bushfire

Top five counties with the highest proportion of assessed settlements where KIs reported shelter damage due to bushfire in the 30 days prior to data collection

Kajo-keji	29%	<div></div>
Gogrial East	12%	<div></div>
Lainya	9%	<div></div>
Yei	5%	<div></div>
Tonj East	4%	<div></div>
