## Location Map

## Key Developments

All tents are raised on a concrete plinth, and 94% had a secondary cover. Latrines and showers are shared by two tents, and each tent has its own kitchen in a brick structure shared by four tents.

The main challenge is service provision, particularly water. 31% said they had not had enough drinking water in the past week and 30% said they had not had enough water for purposes other than drinking.

48% said there was not a safe space for children. Concerns with current location raised included lack of access to services (reported by 16%), lack of livelihood opportunities (15%) and lack of schooling for children (10%).

In the past month, 2% had received a food package composed of less than a standard Family Food Parcel (staple carbohydrates, dry pulses, oil, sugar and iodized salt).

Identified needs included gas fuel (raised by 73%), gas cookers (58%) and heaters (46%).
