Shelter Density (Hectares)

- 1 - 7
- 8 - 20
- 21 - 35
- 36 - 80

This map is showing a representation of density in hectares equivalent. The legend presents the number of shelters per hectare. The shelter numbers were estimated by manually analysing satellite imagery (July, 3) and have not yet been verified on the ground. The number of shelters per sections has also been calculated through the data collected by UNOSAT on July 3 and is displayed on the map.
