Ma'rib Sub-District
No Data

Proportion of IDP sites using main sanitation facility type

- Flush latrine to sewer/tank/pit
- Covered pit latrine
- Flush latrine to the open
- Open pit latrine
- Open defecation

The following indicators were collected through Key Informant Interview (KII) at IDP site level through the CCCM Site Reporting tool: population, main water source type and satisfaction with WASH service. The data was aggregated to the sub-district level. Data, designations and boundaries contained on this map are not warranted to be error-free and do not imply acceptance by REACH partners, associates or donors mentioned on this map.
