

Introduction and Background

Developed through community planning workshops with local community representatives following the completion of REACH Area Based Response (ABR) assessment from November 2021 to February 2022, Community Response Plans (CRPs) are reports that outline a shared local vision for community wide interventions.

Facilitated by a consortium of ACTED, NRC and IMPACT, CRPs take an evidence based approach to planning, effectively translating response gaps identified through REACH ABR into actionable intervention strategies, formulated as specific projects. Using a community-led planning approach, CRPs act as a road map for multi-sectoral interventions.¹

CRP Process Overview

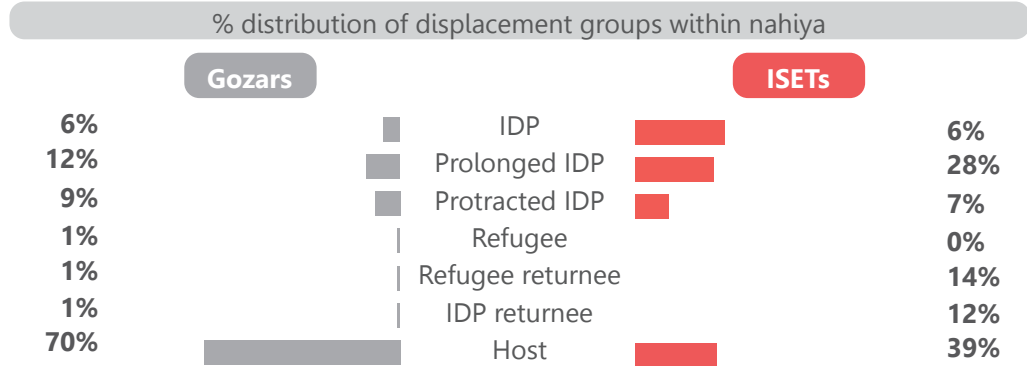

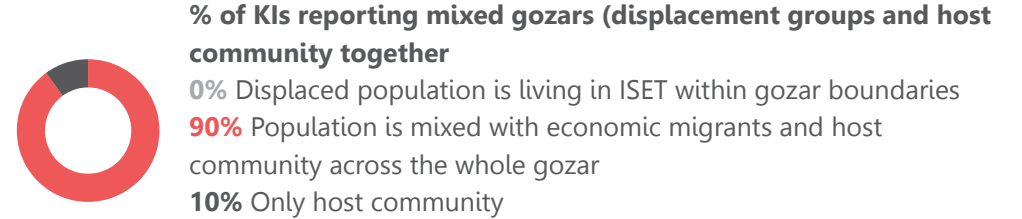

Demographics and composition

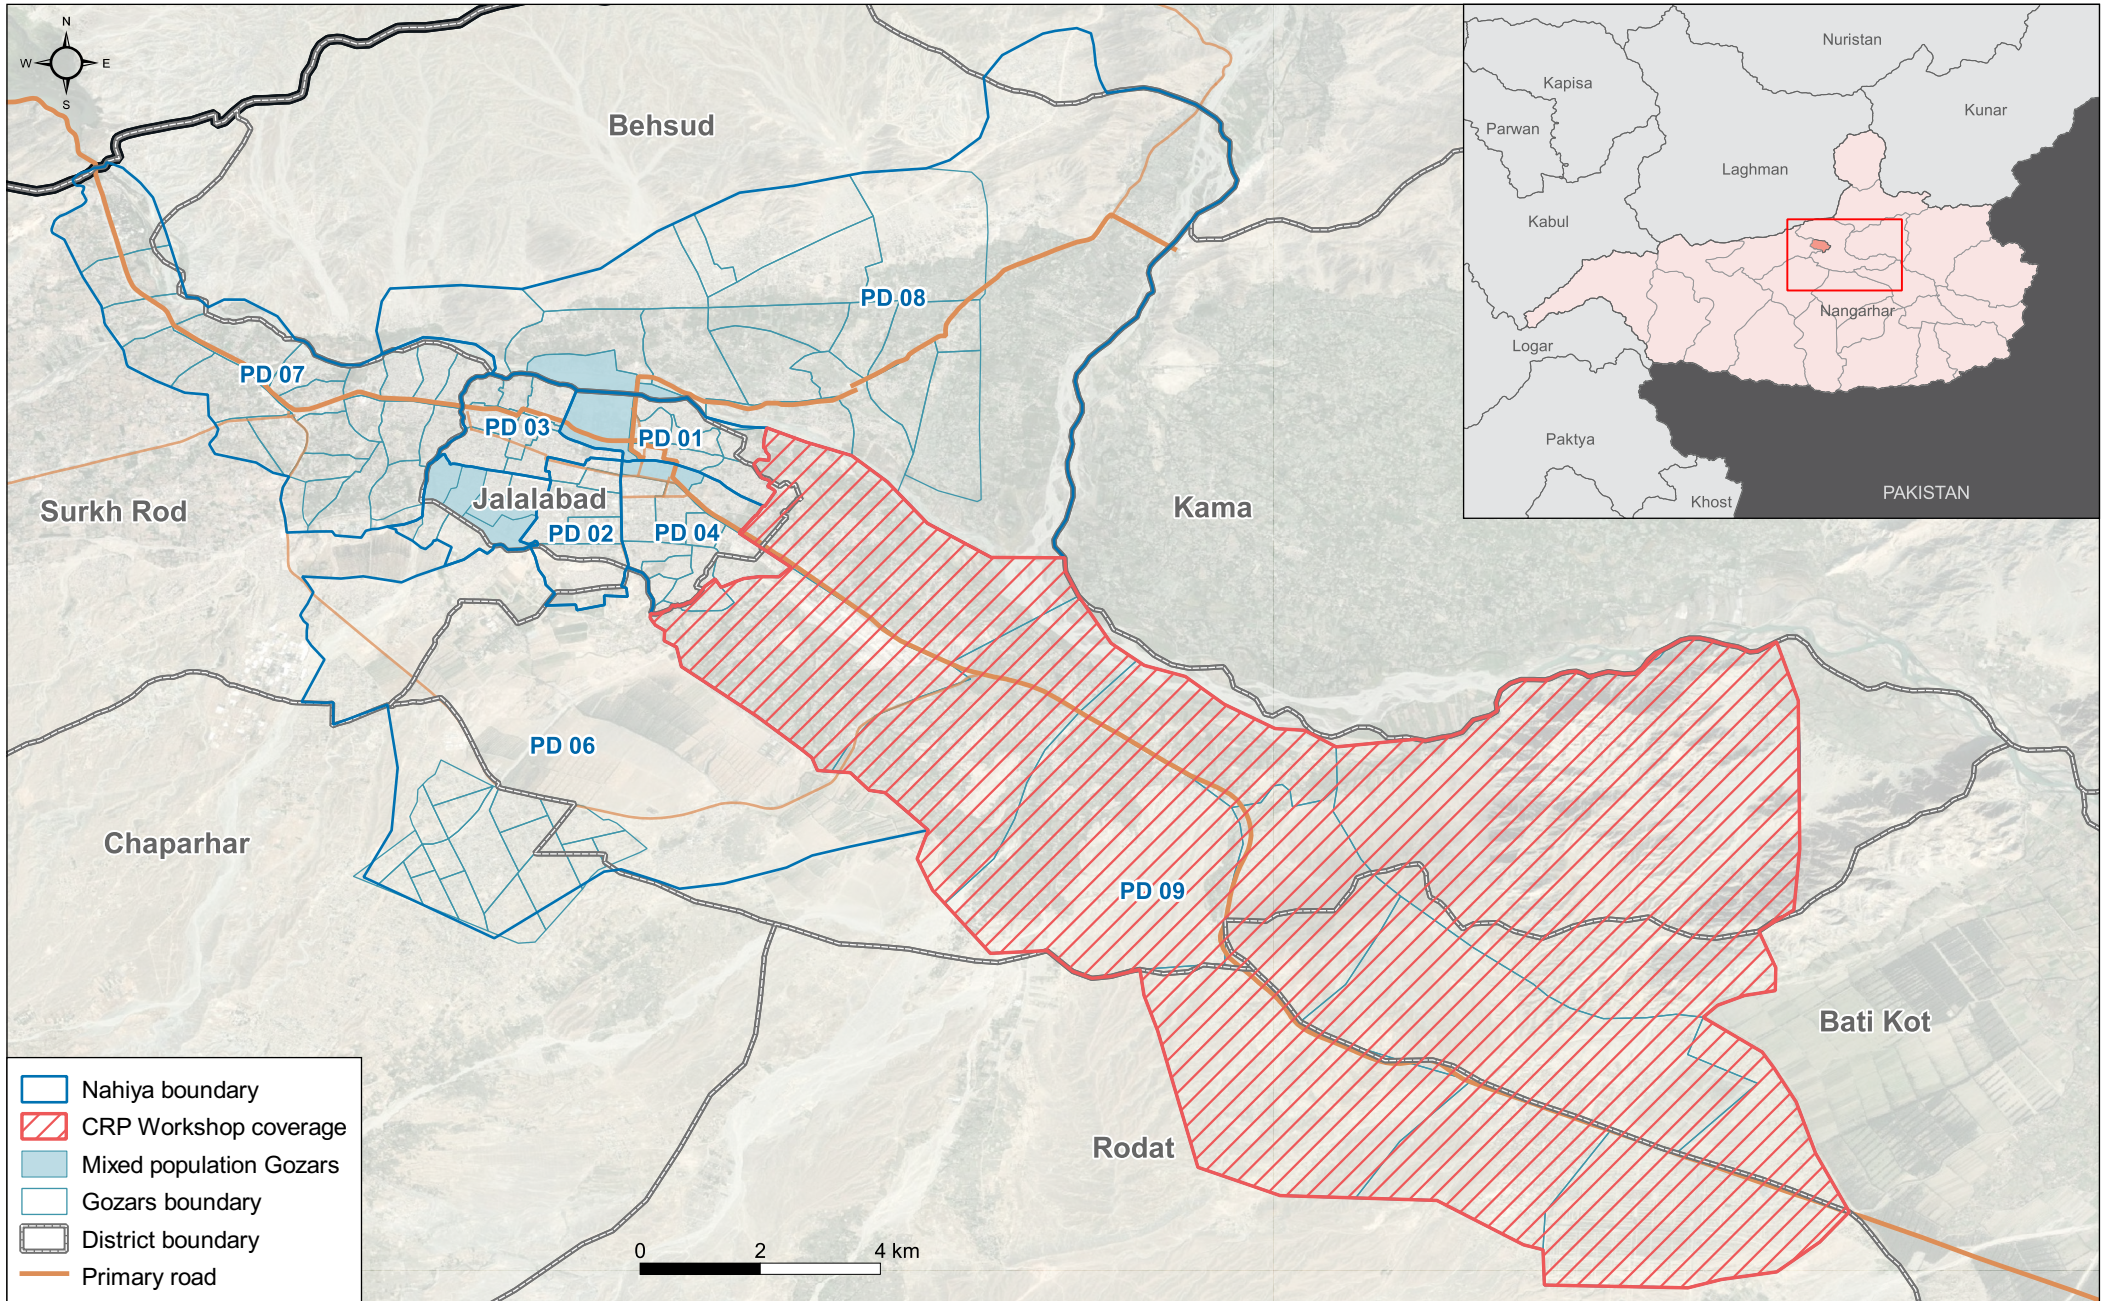

Composition of Jalalabad (Phase 1)		
Number of Nahiyas	Number of gozars	Number of ISETs
9	108	31
Estimated total number of HHs		Estimated number of HHs in ISETs
111,173		65,225

Composition of Nahiya PD9 (Phase 2)	
Number of gozars	Number of ISETs
6	5
Estimated total number of HHs	
27,859	
Estimated number of HHs in ISETs	
17,300	

Displacement (Phase 2)

1. REACH, Afghanistan ABR Terms of reference, 2021

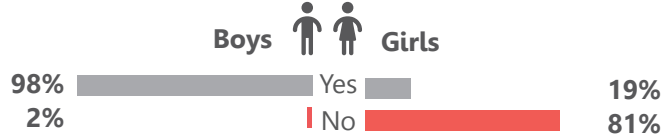

KEY ISSUES & RECOMMENDATIONS

Education

% of KIs reporting **most school age children are able to attend primary school:**

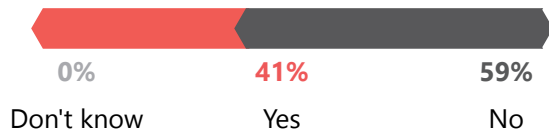

The most reported barrier for primary school aged boys by KIs was that boys need to earn money (73%) and for girls services were not functioning (61%).

Stakeholder recommendations:

Girls education awareness, literacy courses for children, whole community and community leaders, construction of primary school building.

Food security/markets

% of KIs reporting **ability of most households to access enough food** to meet daily needs in the past 30 days:

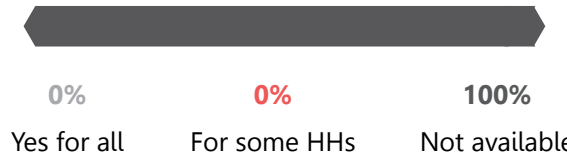

Level of hunger	%
Hunger is worst it can be	0%
Hunger is bad	97%
Hunger is small	3%
Almost no hunger	0%

Stakeholder recommendations:

No projects were proposed during the workshop

Electricity

% of KIs who reported the **availability of electricity:**

Stakeholder recommendations:

No projects were proposed during the workshop

Healthcare

% of KIs who reported that **most households had access to an active healthcare centre** close to their gozar/ ISET in the past 3 months:

All KIs reported that households facing access barriers could not afford to access services (100%), could not access due to lack of transport (84%) or due to insufficient female medical staff (19%).

Stakeholder recommendations:

Creation of job opportunities by training nurses and midwives, construction of clinic, provision of medicine, hiring experienced doctors for clinic.

Environment

% of KIs reporting the **main environmental concern** in the ISET/gozar:

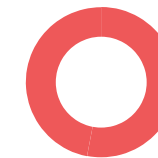

Stakeholder recommendations:

Paving of sub-streets, planting of trees, creation of plantation.

Livelihoods

The **most common form of income** in the settlement reported by KIs:

68% Daily labour, no contract

% of KIs who reported that work for most residents had decreased in the last 3 months

Response	%
Decreased	100%
Increased	0%
Remained consistent	0%

Stakeholder recommendations:

Provision of livestock, business development training, TVET courses (male and female), creation of job opportunities for men and women, rehabilitation of industrial parks.

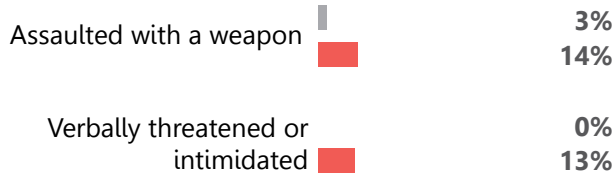

KEY ISSUES & RECOMMENDATIONS

Protection

% of KIs who reported being aware of **protection incidents** in the past 3 months (most reported):

Women
Men

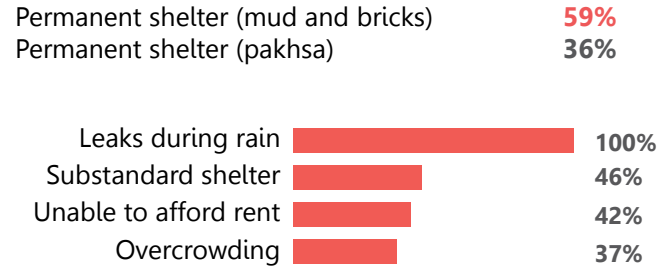

Stakeholder recommendations:

Workshops on gender equality, creation of community development committees, protection awareness sessions.

Shelter/NFI

% of KIs reporting the **main shelter concerns** in the ISET/gozar:

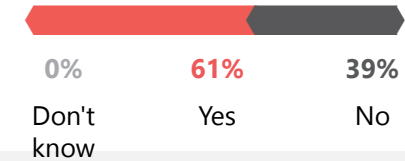

Stakeholder recommendations:

Provision of discounted NFI/winterisation materials, multi purpose cash emergency response.

WASH

44% of KIs reported that most people are unable to access sufficient quantity of water to meet daily needs (drinking, cooking, domestic use and hygiene)

% of KIs reporting there are **publicly available water points** in their gozar/ISET:

Stakeholder recommendations:

Construction of wells and maintenance of pipes, construction of toilets.

Waste management

% of KIs reporting the **most common method of waste management**:

Stakeholder recommendations:

Hiring of community waste management workers, provision of garbage bins, awareness sessions on waste management, waste disposal outside city.

SECTORS

RESOURCES

% of KIs reporting the top 5 main concerns of the population
