Settlement and Protection Profiling

Camp 21 Teknaf, Cox's Bazar, Bangladesh

November 2019

Round 6

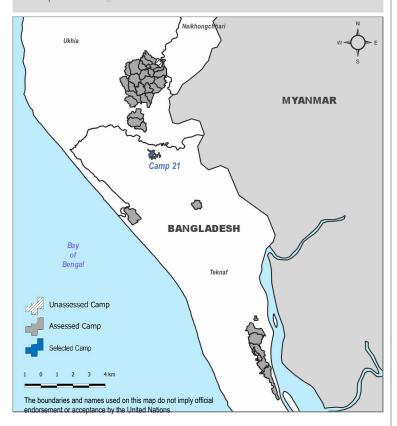

July 2019 and November 2019 comparison

Background and methodology

Since August 2017, an estimated 744,400 Rohingya refugees have fled from Myanmar into Cox's Bazar, Bangladesh, increasing the total number to around 914,998.¹ The majority are reliant on humanitarian assistance, services, and resources including shelter, food, clean water, and sanitation. Information on Rohingya households, particularly in relation to protection and access to services, is in need of regular updating due to the variation in service provision across settlements, challenges presented by the monsoon and cyclone seasons, and the evolving social and contextual dynamics within each settlement. Therefore, REACH in partnership with UNHCR conducted periodic Settlement and Protection Profiling in order to support evidence-based monitoring and analysis of cross-cutting protection issues in Rohingya refugee settlements.

The sixth round of SPP was conducted in 33 out of 34 refugee camps and settlements in Cox's Bazar District from 28 October - 28 November, 2019. Surveys were conducted with households selected through simple random sampling of shelter footprints. Translators Without Borders supported with translating the form into Rohingya. Results of this assessment are generalisable to the population of each camp with a 95% confidence level and 10% margin of error. This factsheet presents an analysis of data collected in Camp 21, where 101 households were surveyed.

Where relevent, findings are compared to those of SPP Round 5 which took place from 25 June - 5 August, 2019.² November 2019 data is presented in dark blue, and July 2019 data is presented in light blue.

■■ Key Camp Information

Camp Management RRRC

Site Management Support UNHCR / ADRA

Population (individuals)¹ 13,172 Population (families)¹ 3,243 Camp Area 0.38 km²

Population density 32,245 individuals/km²

******** Demographics

Household composition by gender and age:

54% of individuals are under 18

78% of individuals are women and children

There is an average of **4.9** individuals reported per household

7% of households reported the presence of members with disabilities⁴

From UNHCR Key Demographic Indicators dataset¹

Families with PSN 29%

% of families with Persons with Specific Needs (PSN), by need³

	'	\ // J	
Separated child(ren)	2%	Unaccompanied child(ren)	1%
Older person(s) at risk	3%	Person(s) with disability	4%
Older person(s) at risk with children	1%	Single male parent with infants	1%
Serious medical condition(s)	3%	Single female parent	17%

94% of households arrived on 25 August 2017 or later

Protection

Five most frequently reported interventions needed to improve the sense of safety and security in the camps⁵:

November 2019			Ji	ıly 201 9
50%	Improved paths and roads	0	Improved paths and roads	51 %
41%	Advice about safety issues	2	Advice about safety issues	50%
35%	Natural disaster warning system	3	Better camp management	48%
30%	Better camp management	4	Natural disaster warning system	22%
19%	More lighting	6	Increased community watch groups	21%

^{2.} UNHCR, Bangladesh: UNHCR Camp Settlement and Protection Profiling - Round 4, December 2018. https://data2.unhcr.org/en/documents/details/71873

^{3.} For definitions of key terms relating to special needs and disability, refer to UNHCR "Guidance on the Use of Standardized Specific Needs Codes" https://bit.ly/2GnJE0h.

^{4.} For this round of data collection, disability was measured at the household level using the Washington Group Short Set of questions on disability. According to this methodology, 'disability' is determined as anyone in the household having at least 'a lot of difficulty' following six domains: walking, seeing, hearing, cognition, self-care, and communication.

^{5.} Respondents could give up to three answers.

Settlement and Protection Profiling Camp 21

Three most frequently reported perceived risks faced by individuals in the camp^{6,7}:

Novem	ber 2019	Men		July 2019
36%	Violence in the community	0	Fear of kidnapping	43%
30%	Natural hazards	2	Natural hazards	40%
29%	No issues	3	No issues	27%
	†	Womer	1	
33%	Violence in the community	0	Natural hazards	43%
32 %	No issues	2	Fear of kidnapping	32 %
31%	Natural hazards	3	No issues	24%
	Ť	Boys		
40%	Fear of kidnapping	0	Fear of kidnapping	57%
37%	Natural hazards	2	Fear of trafficking	34%
37%	No issues	3	Natural hazards	28%

Novemb	per 2019			July 2019
of households with shildren under 5 reported				

of households with children under 5, reported 99% 73% receiving a supplementary feeding ration in the 30 days prior to data collection¹⁰

of households reported receiving a breast-milk 9% 34% substitute since arriving in Bangladesh

Water, Sanitation, and Hygiene

Men

Three most frequently reported perceived issues with latrines for men and women^{8,11}:

November 2019

72%	loo many people	U	loo many people	74%
49%	No lighting	2	No gender seperation	51%
35%	Unsafe route to latrine	3	No lighting	42%
	J	uly 20	19	
49%	Too many people	0	Too many people	45%
36%	Latrine is full	2	No lighting	35%
28%	No lighting	3	Latrine is full	31%
Novembe	er 2019			July 2019

81%	of households reported using public latrines as the
	usual facility for defecation

of households reported that there was not enough 25% 19% light at night for members to safely access latrines

Women

53%

^{7.} These results are based on the respondent's subjective perception of risks in the camp, and not the actual number of security incidents.

^{8.} Respondents could give multiple answers.

^{9.} This question was asked to a subset of 83 households that reported a community watch group in their area.

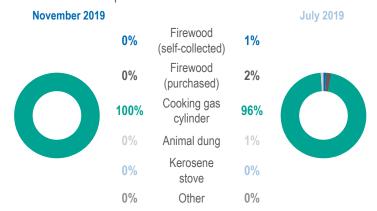

^{10.} This guestion was asked to a subset of 68 households that contained children under 5.

^{11.} Findings on specific issues are reported as a percentage of households who reported any issues

Settlement and Protection Profiling Camp 21

Shelter and Non-Food Items (NFIs)

% of households reported their main source of fuel:

Novembe	er 2019	July 2019
99%	of households reported cooking inside their shelter	100%
86%	of households reported having a lock either inside or outside of their shelter	70%
55%	of households reported having a lock both inside	32%

Three most frequently reported items needed to address household shelter and NFI needs¹³:

and outside of their shelter

Novembe	July 2019			
56%	Solar light	1	Solar light	68%
41%	Shelter materials	2	Shelter materials	50%
38%	Cooking items	3	Fan	48%

🕏 Health

Novembe	er 2019	July 2019
33%	of household members were reported to have an illness serious enough to require medical treatment in the 30 days prior to data collection ¹⁴	30%
52 %	households reported being visited by a community health worker in the two weeks prior to data collection	47%

Three most frequently reported challenges in accessing NGO clinics in the camps¹⁵:

November 2019			July 2019	
67%	Crowded	0	Crowded	46%
43%	Clinic too far away	2	Clinic too far away	35%
42%	Supplies unavailable	3	None	31%

- 13. Respondents could give up to three answers.
- 14. Respondents were asked to report information for each individual in their household. The denominator for this indicator is all individuals.
- 15. Respondents could give multiple responses.
- 16. In July, this question was asked to households with children under the age of 18. In November 2019, it was asked to all households reporting the presence of members aged between 3 and 18 years old.

Education

November 2	2019	July 2019
95%	of households reported being satisfied or very satisfied with the education available in the camps ¹⁶	84%

Three most frequently reported education priorities for children^{14,16}

34%	Supplies	0	Supplies	56%
34%	Money for education	2	Better teachers	37%
33%	Improved curriculum	B	Money for education	33%

🙄 🧥 CwC and Site Management

Three most frequently reported preferred methods of receiving information¹⁵:

Novembe	er 2019	•	July 2019
90%	Face to face	Loudspeakers	73%
75%	Loudspeakers	2 Face to face	71%
14%	Printed leaflet	Information hub	6%
56%	of households reported wanting to have community representation in their camps		
74%	of households reported knowing how to access available assistance		71%
Novembe	r 2019		July 2019
1%	of households reported for assistance in the camps	acing barriers in accessing	4%
82%	of households reported fi providers listen to their of	•	76%

Three most frequently reported sources of assistance to complain or raise a problem related to assistance in camps¹⁵:

88%	Mahji	0	Mahji	83%
71%	Camp In Charge	2	Camp In Charge	73%
17%	Site Management Support agency	3	Site Management Support agency	10%

₹ Priority Needs

Three most frequently reported priority needs:

0	Access to food Access to food	43% 52 %
2	Clothing Solar	18%
3	Electricity/solar Fan	21%
