Ma'rib Sub-District
No Data

Proportion of IDP sites using main water source type

- Piped water into compound
- Borehole
- Protected well
- Water trucking
- Bottled water
- Illegal connection
- Unprotected well

The following indicators were collected through Key Informant Interview at IDP site level through the CCCM Site Reporting tool: population, main water source type and satisfaction with WASH service. The data was aggregated to the sub-district level. Data, designations and boundaries contained on this map are not warranted to be error-free and do not imply acceptance by REACH partners, associates or donors mentioned on this map.
