INTRODUCTION

The Yemen Joint Market Monitoring Initiative (JMMI) was launched by REACH in collaboration with the Water, Sanitation, and Hygiene (WASH) Cluster and the Cash and Market Working Group (CMWG) to support humanitarian actors with the harmonisation of price monitoring among all cash actors in Yemen. With the current global COVID-19 pandemic. REACH has adapted the JMMI to begin assessing the potential impact of the pandemic on markets and on respondents' businesses. The JMMI continues to collect price data for fuel, water, hygiene products, and food items including all the components of the WASH and food Survival Minimum Expenditure Basket (SMEB)*. In addition, new indicators specific to the COVID-19 crisis and its potential impact on markets are now being tracked on a bi-weekly basis from April 2020 (by rounds #R)^. Findings are based on 229 interviews with vendor key informants (KIs), and are to be considered indicative only. Additional methodology can be found in the full JMMI fact sheet.

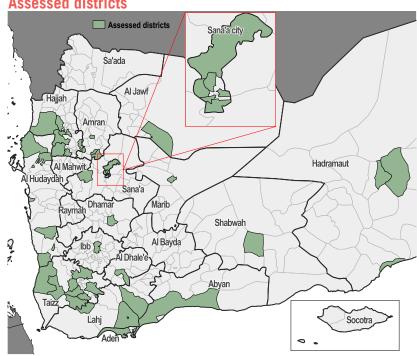

*Containing the minimum, culturally adjusted set of WASH and food items to support an average Yemeni 6-person household for the duration of 1 month.

^August Round 1, 9-17 August 2020

KEY FINDINGS: 9 - 17 AUGUST 2020

- The reported number of open businesses within a 2 minute walk from KIs' stalls increased compared
- Sana'a city has recorded the highest cost of a cubic meter of water trucking compared to other assessed governorates, thus causing an increase in WASH SMEB cost in the governorate.
- Prince inflation remains the most commonly reported economic issue when obtaining fuel, WASH, food items, and water trucking services.
- The food SMEB cost was found to have increased by 1.8% since July, and the WASH SMEB cost also increased by 0.8%, contributing to a 1.6% increase in the overall SMEB cost.
- The average reported restocking time for food items was found to be lower than for fuel and WASH
- Exchange rates continue to differ across the country: rates under 600 Yemeni Riyals (YER) to one US dollar (USD) were reported in Al Hudaydah, Sana'a, Ibb, and Sana'a City. Meanwhile, the highest exchange rates were reported in Aden and Abyan.

ABOUT REACH'S COVID-19 RESPONSE

As an initiative deployed in many vulnerable and crisis-affected countries, REACH is deeply concerned by the devastating impact the COVID-19 pandemic may have on the millions of affected people we seek to serve. REACH is currently working with Cash Working Groups and partners to scale up its programming in response to this pandemic, with the goal of identifying practical ways to inform humanitarian responses in the countries where we operate. COVID-19-relevant market monitoring and market assessments are a key area where REACH aims to leverage its existing expertise to help humanitarian actors understand the impact of changing restrictions on markets and trade. Updates regarding REACH's response to COVID-19 can be found in a devoted thread on the REACH website. Contact geneva@impact-initiatives.org for further information.
