#### **Background and methodology**

The aim of the Emergency Needs Tracking (ENT) System is to track the key priority needs of internally displaced persons (IDPs) in northwest Syria, as well as identifying communities with households in direct need of humanitarian assistance. The ENT assesses communities that have experienced any of the following in the three days prior to data collection: more than 40 IDP arrivals, natural hazards (including storms, fires, and flooding), conflict escalation, or any other event which impacts humanitarian needs. This information should serve to better inform immediate humanitarian operations, as well as provide a wider contextual understanding of the ongoing situation. As the humanitarian situation remains complex, it is critical to fill information gaps across sectors to ensure a well-coordinated humanitarian response.

Data was collected between 17 January and 23 January (excluding Friday and Saturday). Information was collected via a Key Informant (KI) methodology with one KI interview conducted per community. Findings should be considered indicative only. 40 communities, including 3 camps, were assessed overall across Western Aleppo and Idleb governorates. The full dashboard can be accessed <u>here</u> and the full catalogue of datasets can be accessed <u>here</u>.

0/.

## Protection

Percentage of assessed communities in which KIs reported the presence of newly-arrived IDPs with the following vulnerability types:<sup>1</sup>

	70
Women headed households	43%
Elderly headed households	43%
Orphans	13%
Disabled headed households	10%
Elderly travelling alone	5%
Women travelling alone	3%
Child headed households/children travelling alone	3%

### Food security

Most commonly reported food sources for newly-arrived IDPs in assessed communities:<sup>1</sup>

1	Stores/	80%	ŀ	
2	Relying	73%		
3	3 Stores/markets in other communities			
98	8%	of newly-arrived IDP households (373) were reportedly eating one meal or more per day		H H C

#### Shelter

Number and percentage of newly-arrived IDP households by shelter type:<sup>2</sup>

	#	%
Solid/finished buildings	216	57%
Unfinished/ damaged buildings	89	23%
Functioning tents	67	18%
Designated collective centers	0	0%
Residing without any form of shelter	0	0%
Makeshift shelter	0	0%

### NFI Non-Food Items (NFIs)

Number and percentage of newly-arrived IDP households without the following NFIs:<sup>2</sup>

	#	%
Households without sufficient fuel for heating	233	61%
Households without fuel for cooking	177	47%
Households without sufficient mattresses	53	14%
Households without bedding	50	13%
Households without sufficient cooking utensils	39	10%

# Livelihoods

Most commonly reported currency used for purchasing basic/essential commodities:<sup>3</sup>

1 Turkish Lira	100%
2 Syrian Pound	0%
3 United States Dollar	0%

穿 Health

94%

of newly-arrived IDP households (358) reportedly could access essential healthcare

#### View the interactive dashboard here

This factsheet is supplementary to the interactive ENT dashboard which is updated on a daily basis with up-to-date information on humanitarian needs across northwest Syria.

For moreinformation, please contact Jimmie Braley - jimmie.braley@reach-initiative.org

<sup>1</sup> KIs could choose from multiple answer options so answers may exceed 100%
<sup>2</sup> Refers to percentage of total newly-arrived IDP households
<sup>3</sup> Refers to percentage of assessed communities

#### REACH Informing more effective humanitarian acti

# **IDP Priority Needs**

#### Top ranked priority needs for newly-arrived IDPs

(by % of 40 assessed communities where KIs selected a first, second, and third priority need for IDPs):<sup>3</sup>

Туре	First priority need (# of assessed communities reporting)	First priority need (% of assessed communities reporting)	Second priority need (# of assessed communities reporting)	Second priority need (% of assessed communities reporting)	Third priority need (# of assessed communities reporting)	Third priority need (% of assessed communities reporting)	98%
Winterisation kits	1	3%	17	43%	16	40%	
Multi-purpose cash grants	30	75%	2	5%	2	5%	
Cash for rent	2	5%	2	5%	0	0%	
New/additional shelters	3	8%	2	5%	0	0%	
Food rations (in-kind)	3	8%	11	28%	14	35%	
Cash for work	0	0%	1	3%	1	3%	
Employment support	0	0%	1	3%	1	3%	
NFI kits	0	0%	3	8%	4	10%	050/
Education support	1	3%	1	3%	2	5%	3370

#### Humanitarian Assistance

In 39 communities. KIs reported that the preferred modality of assistance for newly-arrived IDPs was cash assistance

In 38 communities. Kls reported that no barriers were present for humanitarian actors when accessing the community

#### Water, Sanitation and Hvaiene (WASH)

Most commonly reported drinking water sources for newly-arrived IDP households in assessed communities:1,3

- Informal water trucking 65% conducted by private citizens
- Formal water trucking conducted 20% by authorities or an NGO
- Combination of water network 18% and private water trucking

13% of newly-arrived IDP households (48) reportedly did not have access to a sufficient quantity of water for purposes such as cooking, bathing, and washing

19% of newly-arrived IDP households (73) reportedly did not have access to functioning hand-washing facilities with water and soap

of newly-arrived IDP households (16) reportedly did not have access to a functioning 4% toilet

About REACH

REACH Initiative facilitates the development of information tools and products that enhance the capacity of aid actors to make evidence-based decisions actions to make evidence-based decisions in emergency, recovery and development contexts. The methodologies used by REACH include primary data collection and in-depth analysis, and all activities are conducted through inter-agency aid coordination mechanisms. REACH is a joint initiative of IMPACT Initiatives. ACTED and the United Nations Institute for Training and Research - Operational Applications Satellite Applica (UNITAR-UNOSAT). Programme
