

OVERVIEW

The Syria Shelter and Non-food Item (NFI) assessment aims to provide comprehensive information on the shelter status and NFI access of populations across Syria. This factsheet presents findings drawn from a representative sample of 1,085 households surveyed across 10 sub-districts in Dar'a. Data was collected from 6 July to 10 August 2017. Results are representative of assessed communities in each sub-district at a 95% confidence level and 10% margin of error. The factsheet occasionally refers to data from a similar assessment carried out in December 2016 for the purpose of comparison, although these comparisons are only indicative due to differences in sub-districts covered between the two assessments.

Overall, a quarter of the assessed households in Dar'a included IDPs, who had been displaced an average of 2.3 times before arriving in assessed locations. Shelter damage was reported by more than 50% of households, of which 37% reported heavy fire damage. More than half of all households used solar panels as their main source of electricity, unique amongst assessed governorates, although over 60% of households reported access to less than six hours of electricity per day.

Map 1: Sub-districts covered

DEMOGRAPHICS

Estimated total population across the governorate<sup>1</sup>: **906,181 people**

Estimated population of assessed sub-districts<sup>1</sup>: **702,920 people**

Population distribution by gender and age:

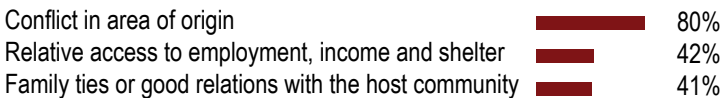

Population displacement status:

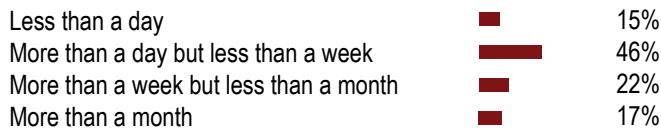

Average household size: **5.9 people**

DISPLACEMENT

For the **28%** of households that include IDPs, top 3 reasons for moving to their current location<sup>2</sup>:

For the **28%** of households that include IDPs, amount of time to prepare before most recent displacement:

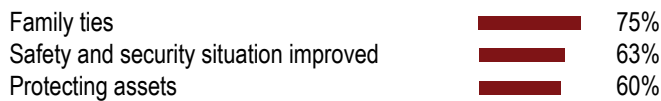

Average time since IDPs arrived in their current location: **2.3 years**

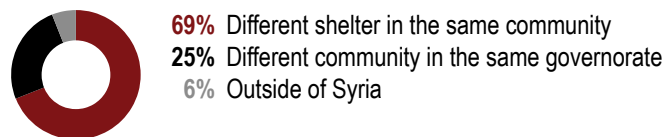

Average amount of time that IDPs have spent in current shelter: **1.9 years**

Average number of times IDPs have been displaced before arriving in their current location: **2.3**

For the **12%** of households that include returnees, top 3 reasons for returning to their areas of origin<sup>2</sup>:

**8%** of households intend to leave their current location within the next month, with intended destinations as follows:

For these **8%**, top 3 reasons for intending to leave their current location<sup>2</sup>:

1. Proximity to relatives/friends
2. Improve access to or upgrade shelter
3. Improve access to income and employment

1. NPM Mobility Dynamics and Services Monthly Report June 2017.

2. Multiple choices allowed.

### SHELTER

Average number of households per shelter: **1.3**

Average number of people per shelter: **7.1**

Average number of people per bedroom: **3.6**

Percentage of households with IDPs and non-IDP households living in each shelter type:

Percentage of households with IDPs and non-IDP households living in each occupancy arrangement:

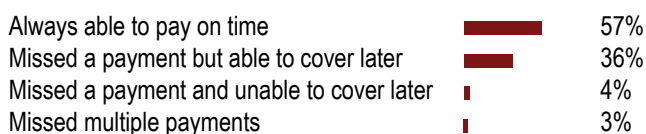

Average monthly rent over the past three months: **28 USD<sup>1</sup>**  
(Dec 2016: 21 USD)

**16%** of households reported renting. Change in rental price over the past 3 months:

Of these **16%**, ability to pay rent on time over the past 3 months:

### HOUSING, LAND AND PROPERTY (HLP)

**74%** of households reported possessing legal documentation to prove their occupancy status. Of these, top 3 most common types of documentation:

**16%** of households reported HLP problems, most commonly due to Lack of connections.

Of these **16%**, **67%** reported that HLP problems made them uncertain of their ability to remain in their shelter.

### SHELTER ADEQUACY/DAMAGE

**54%** of households reported shelter adequacy issues (compared with **73%** in December 2016). Of those, top 5 issues<sup>2</sup>:

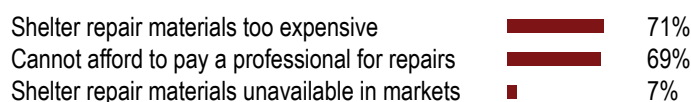

**53%** of households reported shelter damage (compared with **68%** in December 2016). Of those, the top 5 issues were<sup>2</sup>:

### SHELTER REPAIR AND SUPPORT

Of the **53%** of households reporting shelter damage, **69%** were unable to conduct repairs to shelter. Of those, top 3 reasons<sup>2</sup>:

Top 3 unavailable and unaffordable shelter repair materials reported<sup>2</sup>:

Reported preference for shelter support:

**52%** of households reported receiving no information about shelter support in the last year.

1. 14,572 SYP, using UN Operational Rate (514.85) on 1 August 2017.

2. Multiple choices allowed.

### NFIs

#### Reported availability and affordability of NFIs on markets (July 2017):

#### Change in NFI availability over the past 3 months:

#### Priority NFI needs reported per age and gender groups<sup>1</sup>:

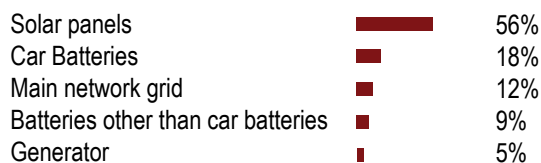

|                 | 1.                     | 2.           | 3.                     |
|-----------------|------------------------|--------------|------------------------|
| Girls (0-17y)   | Clothing               | Shoes        | Baby diapers           |
| Boys (0-17y)    | Clothing               | Shoes        | Portable light sources |
| Women (18-59y)  | Cooking fuel           | Clothing     | Cooking utensils       |
| Men (18-59y)    | Portable light sources | Batteries    | Clothing               |
| Elderly (60+ y) | Clothing               | Cooking fuel | Portable light sources |

#### 77% of households adopted coping strategies in response to a lack of NFIs, most commonly<sup>1</sup>:

1. Borrowing money or buying on credit
2. Spending savings
3. Selling household assets

### ELECTRICITY

#### 1% of households reported no main source of electricity. For the remaining 99%, the main sources were as follows:

#### Reported hours of electricity available per day:

#### 92% of households reportedly adopted coping strategies in response to a lack of electricity, most commonly<sup>1</sup>:

1. Use electricity for certain purposes only
2. Use battery powered devices such as torches
3. Use electricity only at certain times of the day

### FUEL

#### Top 3 main sources of heating and cooking fuel:

| Cooking fuel  | % of households using the source | Heating fuel  | % of households using the source |
|---------------|----------------------------------|---------------|----------------------------------|
| Gas           | 90%                              | Wood/charcoal | 58%                              |
| Wood/charcoal | 7%                               | Diesel        | 30%                              |
| Diesel        | 3%                               | None          | 11%                              |

### ACCESS TO MARKETS AND NFI SUPPORT

#### 15% of households reported challenges accessing a market, most commonly<sup>1</sup>:

#### Reported preference for NFI support:

#### 37% of households reported receiving no information about NFI support in the past year.

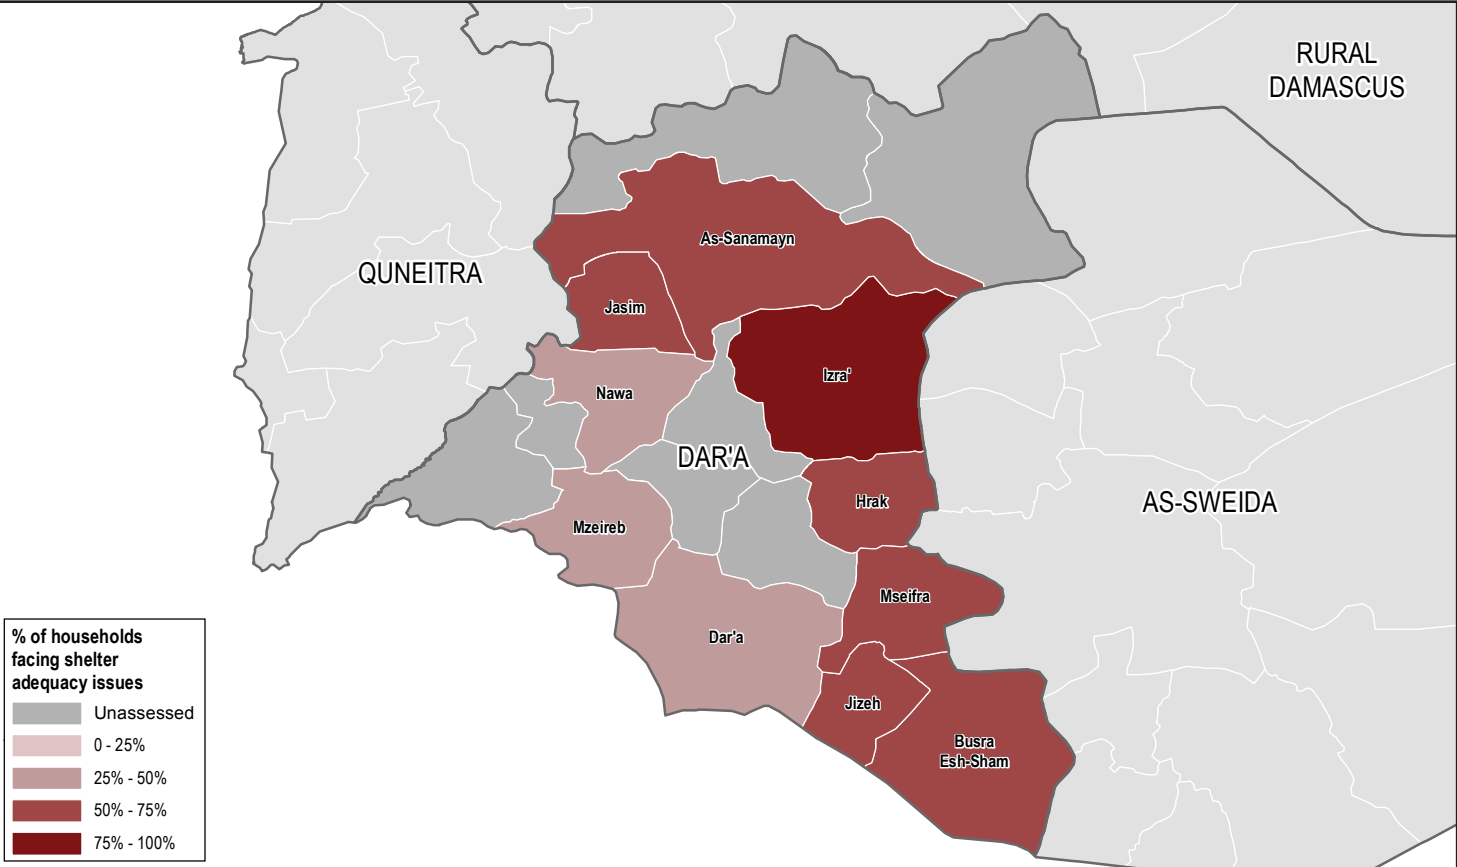

#### Top 5 most likely NFIs to be purchased with cash/voucher-based aid<sup>1</sup>:

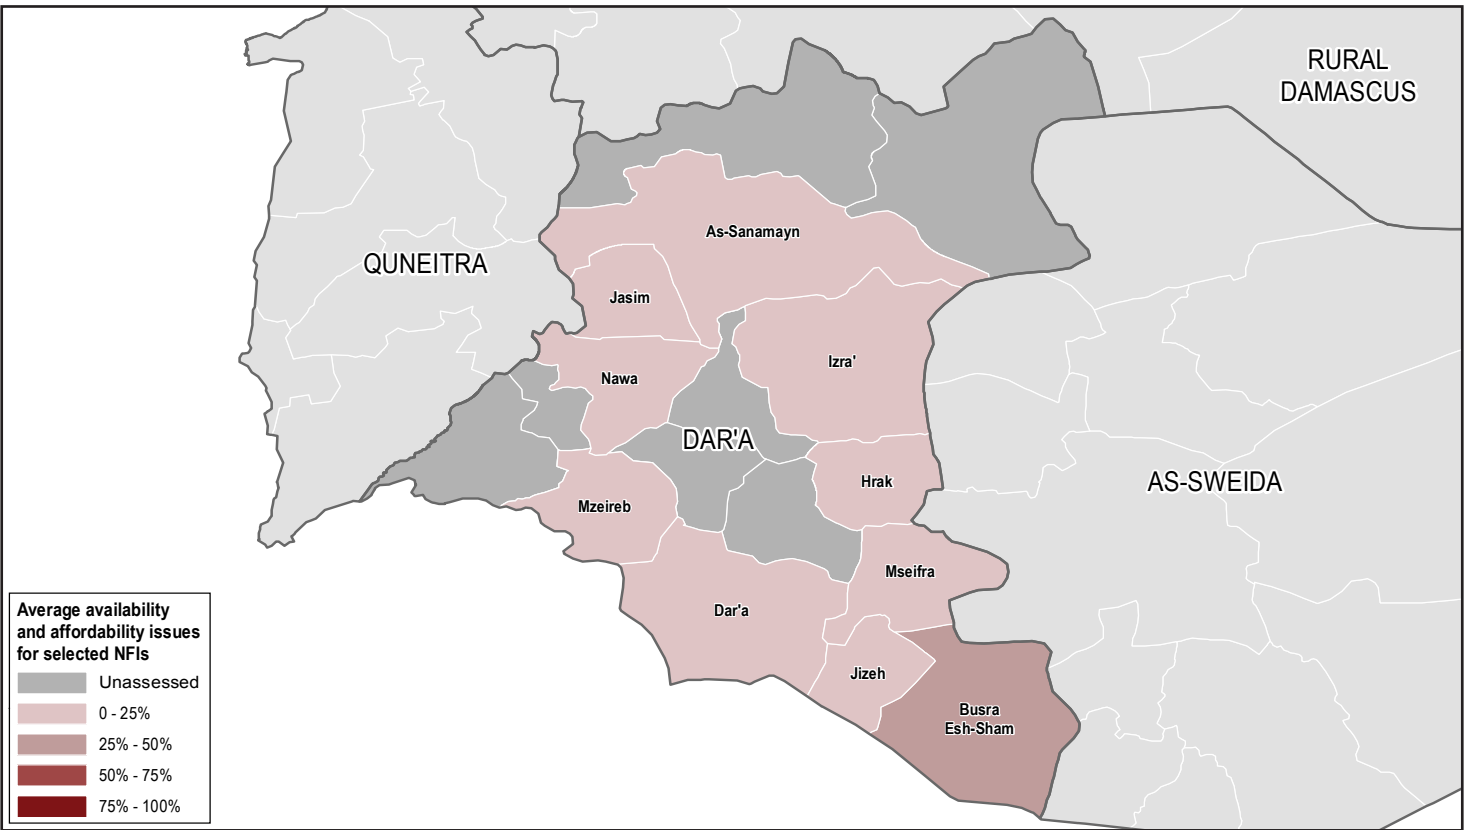

1. Multiple choices allowed.

Map 2: Proportion of households reporting shelter adequacy issues (by sub-district)

Map 3: Average levels of NFI availability and affordability problems<sup>1</sup> (by sub-district)

1. Calculated as an average of the percentage unavailability/unaffordability reported for each NFI item displayed in the availability/affordability graph on the previous page.
